## Quotes by Max Levchin

- The very first company I started failed with a great bang. The second one failed a little bit less, but still failed. The third one, you know, proper failed, but it was kind of okay. I recovered quickly. Number four almost didn't fail. It still didn't really feel great, but it did okay. Number five was PayPal.
- Ignore your mistakes. The number one thing to worry about is -Am I doing what I'm good at?
- Being an entrepreneur is not about being in love with an idea, it's about being in love with running a company.
- You can't get married to any one particular plan. That is the biggest lesson I learned at PayPal.
